Common abbreviations for names of States and months are also used.

H. or S. followed by a number stands for House bill or Senate bill, respectively.

*Document for sale by Superintendent of Documents.

†Distribution by office issuing document, free if unaccompanied by a price.

‡Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.**, are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{7}{10}$ c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

Beginning with July, 1910, the Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1911. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number is an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1911. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

The Labor Bureau's 19-volume series on conditions of woman and child wage-earners in the United States is still in course of publication as Senate document 645, 61st Congress, 2d session. Vol. 8 of the series, which is also part 8 of the document, is the latest issue. The volume title is Juvenile delinquency and its relation to employment.

All of the irrigation laws have been collected in a pamphlet sold by the Superintendent of Documents at 5 cents.

Forest Service Bulletin 84, Preservative treatment of poles, is a publication of importance especially to telegraph, telephone, and trolley road companies. These corporations use whole forests of poles, and as they are not very lasting the constant renewals required are a big item in the maintenance accounts. Bulletin 84 offers the results of many experiments in preservative treatment. 15 cents.

Technical series 21, Entomology Bureau, Synopsis, catalogue, and bibliography of North American Thysanoptera, with description of new species, is a sizable pamphlet relating to thrips, a family of insects so minute that to the ordinary unscientific observer the accounts of the harm they do seem almost incredible. 10 cents.

Soils Bureau Bulletin 68, The movement of soil material by the wind, with a bibliography of eolian geology, is a substantial treatise of 272 pages and several plates on a subject of most material import in the conservation movement but of which the average reader knows little. 35 cents.

The Post-Office Department is publishing postal savings bank information in numerous languages. Form PS10 is the Postal Savings System regulations in German.

Frost data of the United States and length of the crop growing season as determined from the average of the latest and earliest dates of killing frost. This is the title-page of a series of charts bound up as Bulletin V of the Weather Bureau. The title tells the whole story. 15 cents.

The President's Economy and Efficiency Commission has issued several publications in addition to those noted in the May Monthly catalogue.

The numerous archeologically-minded citizens who follow the publishing announcements of the Ethnology Bureau will not overlook Bulletin 44, Indian languages of Mexico and Central America. It is cloth-bound and sells for 35 cents.

Vol. 58, no. 1, Miscellaneous collections of the Smithsonian Institution, is a 5th edition, revised, and more than revised—substantially reconstructed, of the Smithsonian physical tables, for many years past a standard publication.

The United States Geological Survey continues actively its work of spirit leveling throughout the country. Several new bulletins on the subject were published in June. Bulletin 459 is spirit leveling in

Missouri, 1896-1909; 460, Iowa, 1896-1909; 461, Michigan and Wisconsin, 1897-1909; 462, Oregon, 1896-1910; 457, Washington State, 1896-1910.]

Application of some of the principles of heredity to plant breeding is the title of Plant Industry Bureau Bulletin 165. The reader will learn that there really is something new under the sun. Price 10 cents.

The President's speech on reciprocity, delivered at Chicago June 3, 1911, has been printed as Senate document 43 of the 62d Congress.

The Superintendent of Documents can supply a copy of the Regulations of the Naval Academy, 1911, in cloth binding, for 30 cents.

Plant Industry Bureau issues title-pages and contents tables to be used by those collectors of its bulletins who wish to bind them into substantial volumes in numerical order. The latest issue provides for thus binding numbers 198-205 as vol. 26.

As a contribution to the serious effort now making to exterminate one of the most noxious insect pests, the Animal Industry Bureau has issued its Bulletin 130, Studies on the biology of the Texas-fever tick. Price 10 cents.

Information relative to transportation of mails by railroads, issued by the second assistant Postmaster General, is a handy pamphlet of extracts from the Postal laws and regulations of 1902 and from more recent amendments to that volume.

Animal Industry Bureau Bulletin 137, considering Anthrax with special reference to the production of immunity, is a hopeful attack upon a virulent malady that has afflicted both man and beast from the dawn of history. The bulletin has found that it is mentioned by Moses in Exodus, and also by Homer, Ovid, Plutarch, Virgil, and Pliny. The bacillus of anthrax is unusually large and of such definite and constant characteristics that it can hardly be mistaken for any other. Vaccination is the protective treatment recommended.

The Interior Department has issued a descriptive pamphlet and map concerning the new Glacier National Park in Montana. 5 cents.

Under the general title, American mineral waters, the Chemistry Bureau has issued its Bulletin 139, describing the natural mineral springs of the New England States. Many readers will be glad to have this impartial and accurate information. 15 cents.

General popular use will no doubt be found for Standards Bureau Circular 10, Legal weights (in pounds) per bushel of various commodities. 5 cents.

Forest Service Bulletin 88, Properties and uses of Douglas fir, calls this "the most important of American woods." 15 cents.

Public Roads Office Circular 94, Progress reports of experiments in dust prevention and road preservation, 1910, reports many interesting and successful trials of road material and construction. Those which will probably arouse the greatest interest were made with the new material devised by Director Page and named oil-cement-concrete.

The Trade Relations Bureau, State Department, has published an 11-page pamphlet of comparisons of prices of agricultural implements in Canada and the United States, showing that such prices are decidedly lower on our side of the line.

Uncinariasis (hookworm disease) in Porto Rico is a very important and interesting report by the Porto Rico Anemia Commission, at the head of which is Dr. Bailey K. Ashford, discoverer of the hookworm in Porto Rico and author of the measures by which this parasite that has depleted the blood and sapped the vitality of the barefooted farm laborers of the island is being eradicated. Such eradication will be substantially the rejuvenation of the island and one of the great triumphs of modern scientific medicine. The Government print of the work is Senate document 808, 61st Congress, 3d session, 335 pages and numerous illustrations.

Senate document 745, 61st Congress, 3d session, is a full statement of the proposals of Mr. Herbert D. Brown for the retirement of Government employees. The title is Savings and annuity plan proposed for retirement of superannuated civil-service employees.

Soils Bureau Bulletin 78, Use of soils east of the Great Plains region, is based upon the work of the Soils Bureau to January 1, 1910. During the ten years progress of the Soil survey 165,021 square miles, or 105,613,576 acres, have been mapped in that part of the country east of the Great Plains, the work having been so distributed that substantially every part of the eastern half of the country is represented in its results. Thus a vast amount of information regarding the origin, properties, and uses of American soils has been acquired and published in the annual volumes of Field operations of the Soils Bureau. It has been thought advisable to bring this information together compactly and in such manner as to point out the relationship and the essential differences in the various soils. Hence this volume of 292 pages, with a map and 16 figures. Sold by the Superintendent of Documents at 50 cents.

The present session of Congress, which began April 4, has been considering several projects of legislation of unusual importance, but has not yet brought any of them to a conclusion. The only law which has thus far passed through both Houses and received the Presidential approval is one for the extension and widening of a street in the city of Washington. This was approved June 30, and has been printed as Public no. 1.

Volumes 6 and 7, Publications of the United States Naval Observatory, have just been issued. Vol. 6 contains miscellaneous astronomical papers. Appendix 3 to vol. 6 is a List of publications of the Observatory, 1845-1908, by the Observatory librarian, Mr. William D. Horgan. A list of such completeness has long been a desideratum. Vol. 6 also appears as House document 140 of the 61st Congress, 2d session. Vol. 7 is a catalogue of 23521 stars, from observations made at the Observatory, 1846-1852. There is also a document print of it, 61st Congress, 2d session, House document 143.

The new Commerce Court has issued a code of rules for practice therein. An intimation is given also that additions to the Rules may be made at the next term of the Court.

Sixty cents is the price charged by the Superintendent of Documents for a paper-covered copy of United States Geological Survey Water-supply paper 256, a substantial volume of 406 pages and 27 maps and other illustrations, discussing in detail geology and underground waters of southern Minnesota.

The 33d (1910) annual number of that standard official publication, the Statistical abstract of the United States, is now ready for distribution. It has 772 pages and is sold in paper covers at 50 cents a copy. Its statistics cover comprehensively many years, in some instances going back to the foundation of the Republic. They are arranged under the following general headings, and under each one of these are numerous subheadings: Area, natural resources, and population; Agriculture, forests, and fisheries; Manufacturing and mining industries and patents; Occupations, labor, and wages; Internal communications and transportation; Merchant marine and shipping; Foreign commerce; Internal commerce—Commercial failures; Commerce of noncontiguous territory; Prices; Consumption estimates; Money, banking, and insurance; Wealth and public finance; Civil service, Army and Navy, Pensions, Congressional apportionment, and Presidential elections; Statistical record of the progress of the United States; Commercial, financial, and monetary statistics of the principal countries of the world. Here is certainly a most comprehensive statistical collection. When in doubt, ask the Statistical abstract.

NEW SERIES

The Animal Industry Bureau, Agriculture Department, has begun a series under the title Animals imported for breeding purposes for which certificates of pure breeding have been issued by the Bureau of Animal Industry. The first issue has for subtitle, Cattle: January 1 to March 1, 1911. Beginning January 1, 1911, customs officials have required certificates of pure breeding, issued by the Agriculture Department, before admitting the entry duty free of animals imported for breeding. This fact has made advisable the publication of lists similar to the cattle list here mentioned at quarterly or other suitable intervals. The first issue in this series is not numbered, but there are numerous precedents for beginning numbering after several numbers have been issued unnumbered.

The Mines Bureau has issued Schedule no. 1, Fees for testing explosives and conditions and requirements under which explosives are tested. Other numbers in this series will be issued from time to time as occasion may require.

SERIES WITHIN SERIES

Several of the numbered circulars of the Soils Bureau, Agriculture Department, have been double-numbered, the second number grouping them in a subseries under the title Soils of the eastern United States and their use. Thus—

1. Norfolk fine sandy loam. (Circular 22.)
2. Norfolk fine sand. (Circular 23.)
3. Portsmouth sandy loam. (Circular 24.)
4. Sassafras silt loam. (Circular 25.)
5. Cecil sandy loam. (Circular 27.)
6. Cecil clay. (Circular 28.)

Many more will follow.

The Forest Service will shortly begin the publication of what promises to be an extensive and valuable series. This also will be a series within

a series. The general title will be Commercial uses of the woods of the United States. The first issue will have for subtitle Cedars, cypresses, and sequoias, and will be Forest Service Bulletin 95. The second issue will be subtitled Pines, and will be Forest Service Bulletin 99. No other numbers are yet ready for announcement, but it is planned to continue the series until all the American varieties of wood have been considered. The treatment will be historical as well as commercial, showing the uses which have been made of each kind of wood from the first settlement of the country, with various statistics of the former and present supply, consumption, introduction of new uses and abandonment of old, etc.

The Hydrographic Office, Navy Department, has an extensive correspondence with inquirers who seek to avail themselves of the expert information of the office concerning nautical matters. Many of the letters written in reply to inquiries require much labor and research, and to the end that the results of this may not be buried in the letter files and thus made unavailable for future use the more important of them are being printed in a numbered series called Questions and answers. No. 3 of these is dated June 21. The questions and answers are also included in the series of numbered pamphlets entitled Reprint of hydrographic information from the Pilot charts and Hydrographic bulletin published by the United States Hydrographic Office under authority of the Secretary of the Navy. The latest issue of the Reprint is no. 21, and its contents are Questions and answers no. 3. No. 1 (unnumbered) is in Reprint 8, Sept. 20, 1909, and no. 2 is in Reprint 14, June 30, 1910.

MISCELLANEOUS SERIES, MANUFACTURES BUREAU

The new edition of Packing for export is the first issue in this series which bears a printed number on its title-page. It is no. 5.

The preceding issues, published without number, are thus listed:

- [1.] Promotion of foreign commerce in Europe and United States; by N. I. Stone. 1907. 24 p.
- [2.] Export trade exploitation. 1908. 16 p.
- [2a.] Export trade exploitation. 2d edition, with additions. Mar. 10, 1911. 30 p.
- [3.] Jute industry. 1909. 40 p.
- [4.] Packing for export. 1909. First print, 38 pages. Second print, 38 numbered and 2 unnumbered pages.

PACKING FOR EXPORT

Miscellaneous series no. 5 is the official designation of the new edition of a valuable monograph from the Manufactures Bureau. The full title is Packing for export—Suggestions for preparation of American merchandise for shipment to foreign countries.

Two editions of a pamphlet of similar title were issued in 1909 and large numbers of copies were supplied to citizens and corporations interested in transportation. These were no doubt of much value in correcting the faulty methods which had been followed by American shippers to foreign countries. The early editions were, however, small affairs compared to the new edition just issued. The work has grown from 38 to 170 pages,

the number of illustrations has been much increased, an index has been provided, and the requirements of safe packing for many additional countries, ports, and places are supplied.

That the country is waking up to the importance of suitable packing for export is demonstrated by the activity of railroad companies, steamboat companies, and manufacturing associations in securing hundreds and even thousands of copies of the new edition for distribution.

The pamphlets are sold by the Superintendent of Documents at 15 cents.

BOUND VOLUMES OF DAILY CONSULAR REPORTS

The buckram-bound volume of the Daily consular and trade reports, containing the reports printed daily during the months of April, May, and June, 1911, with title-page and index, will be issued in due course, and will be the last issue of the kind.

The demand for the bound volumes has not been sufficient to warrant their continuance. There are three volumes in all, covering the three quarterly periods, October-December, 1910, and January-March, April-June, 1911. Copies of all these can be supplied. Price, \$1.50 each.

The publication of the quarterly indexes to the Daily consular and trade reports will be continued. Price, 10 cents.

Binding the Catalogue

The Documents Office will soon issue a consolidated index to all entries in the twelve numbers of the Monthly catalogue, July, 1910, to June, 1911. The quarterly indexes, heretofore published, may therefore be thrown aside in binding the catalogue for the year. A title-page for the twelve numbers accompanies this issue. Duplicate numbers of the Monthly catalogue can not be supplied.

MONTHLY CATALOGUE

No. 198 .

JUNE

1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

[Bureau of Animal Industry] order 167, amendment 2 to rule 2, revision 3, 175, amendment 4, 178, amendment 1 to rule 1, revision 7; May 17–June 16, 1911. [1911.] [Consist of orders concerning quarantine of cattle, etc.] †

Food inspection decision 136, 137. June 3–24, 1911. † Agr 7—1659/2

Information in response to resolution relative to eradication of cattle ticks in Alabama. June 14, 1911. 5 p. (S. doc. 47.) * Paper, 5c.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers: and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to \$11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least \$5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 696.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least \$3.00.

Alaska, Yukon-Tanana region, Circle quadrangle, Reconnaissance map of, lat. 64°-66°, long. 142°-146°. Scale 1:250,000, contour interval 200 ft. [Washington, Geological Survey] edition of May, 1911. 36.6×31.7 in. † 25c.

Arizona-California, Parker quadrangle, lat. 34°-34° 30', long. 114°-114° 30'. Scale 1:125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Mar. 1911. 17.5×14.6 in. † 5c.

Illinois, Hennepin quadrangle, lat. 41° 15'-41° 30', long. 89° 15'-89° 30'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1911. 17.5×13.2 in. † 5c.

Kentucky, Dawson Springs quadrangle, lat. 37°-37° 15', long. 87° 30'-87° 45'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×14 in. † 5c.

Maryland, Prince Frederick quadrangle, lat. 38° 30'-38° 45', long. 76° 30'-76° 45'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×13.8 in. † 5c.

Maryland-Pennsylvania, Emmitsburg quadrangle, lat. 39° 30'-39° 45', long. 77° 15'-77° 30'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Mar. 1911. 17.5×13.6 in. † 5c.

Maryland-Pennsylvania, Taneytown quadrangle, lat. 39° 30'-39° 45', long. 77° 15'-77° 30'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1911. 17.5×13.6 in. † 5c.

Michigan, Calumet special map, lat. $47^{\circ} 10' - 47^{\circ} 20'$, long. $88^{\circ} 20' - 88^{\circ} 35'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1911. 15.2×15.3 in. † 5c.

New York, Monticello quadrangle, lat. $41^{\circ} 30' - 41^{\circ} 45'$, long. $74^{\circ} 30' - 74^{\circ} 45'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1911. 17.5×13.2 in. † 5c.

Virginia-Tennessee-North Carolina, Abingdon quadrangle, lat. $36^{\circ} 30' - 37^{\circ}$, long. $81^{\circ} 30' - 82^{\circ}$. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Apr. 1911. 17.5×14.2 in. † 5c.

West Virginia, Peytona quadrangle, lat. $38^{\circ} - 38^{\circ} 15'$, long. $81^{\circ} 30' - 81^{\circ} 45'$. Scale 1:62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Apr. 1911. 17.5×13.9 in. † 5c.

Fees for testing explosives and conditions and requirements under which explosives are tested. June 1, 1911. 6 p. (Schedule 1.) †

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at \$5.00 per volume or \$60 per year, and back numbers, prior to 1907, may be had at \$3.00 per volume or \$36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to \$10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at \$1.00 per package, or in books containing 100 coupons at \$5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Apr. 1911 [with list of inventions]. 1911. lxxxviii p. large 8° [Monthly index to Official gazette.] * Paper, 10c. single copy, included in price of Official gazette for subscribers.

Official gazette, June 6-27, 1911; v. 167, no. 1-4. 1911. cover-title, 986+[ciii] p. il. large 8° [Weekly.] * Paper, 10c. single copy, \$5.00 a yr.

NOTE.—Contains the patents, trade-marks, designs, and labels issued each week; also decisions of the Commissioner of Patents and of United States courts in patent cases.

RECLAMATION SERVICE

Reclamation record, v. 2, no. 18; June, 1911. [1911.] p. 183-198, 4° [Monthly.] 9—35252/3

NOTE.—The Reclamation record is sold for 50 cents per year. Subscriptions may be forwarded to the Chief Clerk, U. S. Reclamation Service, Washington, D. C., and remittances should be made payable to the Special Fiscal Agent, U. S. Reclamation Service.

INTERSTATE COMMERCE COMMISSION

NOTE.—The Commission furnishes its Annual reports and many minor publications gratuitously to those who apply for them, but the bound volumes of its decisions, usually known as Interstate Commerce Commission reports, are sold by the Superintendent of Documents. Beginning with v. 18, Opinion 1165, subscribers may deposit \$1.00 with the Superintendent of Documents and receive the separate opinions, which make up the bound volume of decisions, as they are issued.

Car-couplers. Decisions under safety appliance acts, United States v. Chicago, Milwaukee & Puget Sound Railway Co., in district court for district of Montana [statement of facts and instructions to jury]; decided May 2, 1911. 1911. 2 p. ‡

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

- Canal Zone, Isthmus of Panama. Executive order [amending Executive order of May 13, 1911 so as to provide for collection of distillation tax in Canal Zone to be effective Aug. 13, 1911]. June 12, 1911. 1 p. f° (No. 1372.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The volumes of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for free distribution. Publications should be ordered by the serial number. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

- Cambrian geology and paleontology [v.] 2:3, Middle Cambrian holothurians and Medusae; by Charles D. Walcott. Washington, Smithsonian Institution, June 13, 1911. [2]+41-68 p. il. 6 pl. (Publication 2011; Smithsonian miscellaneous collections, v. 57, no. 3.)

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Supplement 2, 1911, corrections and additions to Bulletin 20; to supplement information given upon charts of Great Lakes. U. S. Lake Survey Office, Detroit, Mich., [June 19] 1911. p. 1-3+1. 4-15+[2] p. 4° † 8-35459/3
